At LJs Ratxó Eco Luxury Retreat, one is always close to nature. It is this proximity that helps us reconnect with our Earth. The natural beauty that surrounds us invites us to create our wellness experiences.

Our products are 100% organic, grown and produced in Spain and Mallorca, cruelty-free, without parabens, sulfates, silicone, or chemicals: a spa concept that respects the environment and your health, which is nourished by the richness of our garden and the nature that surrounds us. Plants, essential oils from the Serra Tramuntana, sea salt from Es Trenc, fresh lavender or homemade honey are some of the ingredients of the treatments and massages that we offer you.
